

AP® Physics 1

Summer Assignment Instructions

You should have received an invitation to join the Google Classroom "AP Physics 1" in your wscloud email account. If you cannot find it, email me to receive another invitation.

Step 1: Read the syllabus in the "ABOUT" section of Classroom. It explains important facts about how class is run. Pay particular attention to the section on Academic Integrity before you start the summer work.

Step 2: Read the Summer Reading in the "ABOUT" section. It will have all the information you will need to complete part 1 of the summer assignment. A copy of the reading is also available on the WKHS counselors' website.

Step 3: Complete "Measurement Set #1". It is due the first day of class. You can pick up a hard copy of this assignment in room 259 or print off a copy from the "ABOUT" section. A copy of the reading is also available on the WKHS counselors' website.

Step 4: Watch your wscloud mail for part 2 of the summer work. You will not be able to do this part until after schedule pick-up day in August.

WARNING: You will most likely lose access to your email and to Classroom for the first week or so of August. You should be able to reconnect once you have picked up your schedules and obtained your new password.
