

Expectations for Online Learning:

Dear Wolves,

We are excited to get started Monday. We want to share some of our expectations with you as we begin the year remotely.

Attendance - We expect students to attend all of the video conferencing class sessions. Be on time and please know our teachers will be taking attendance. You should use your name for your video box. Do not change it to something other than your first and last name. Students are expected to access their Schoology classes daily, unless directed otherwise by the teacher.

Zoom/Video Conference - Students should start the class with their video on and their microphones muted--please be aware of your surroundings. We expect students to stay on video unless otherwise directed by the teacher. Please be proactive and communicate with your teachers if you are experiencing any technical difficulties.

Behavior - We expect good conduct by our students. Wearing appropriate attire is expected during your video sessions. The chat feature should be used for class specific discussions. Actively participate in your video sessions and do not be disruptive to the teaching and learning.

Thank you for assisting with these expectations and we hope to have a great start to the school year. If you need anything please reach out to your teachers, coaches, counselors, and administrators. We are here to help.

Sincerely,

Aric Thomas, Principal

Worthington Kilbourne High School
